Net metering is available

The process of connecting a small (100 kW or less) wind turbine or solar power system to the electric utility grid is called interconnection. The Missouri law "Net-Metering and Easy Connection Act" specifies rules for interconnecting and providing credits for excess generation supplied to the grid. New-Mac Electric has an Interconnection Application/Net Metering Agreement based on this Act, which also addresses safety, power quality and insurance recommendations.

For more information regarding net metering on the New-Mac Electric system, contact our member services department at 451-1515 or 800-322-3849.

Offices closed for holidays

New-Mac's offices will be closed Dec. 23-26 for Christmas and Jan. 2 for New Year's Day.
